Kids really matter to us. That’s why we’ve come up with a special shop with only kids’ glasses. With a choice of about 650 frames in every price class and shape, your child is assured of super cool glasses! City Bril Junior has the newest collections of all well-known brands of children’s glasses. The glasses are of the highest quality, strong and very flexible and priced from a very sharp € 99,-.

City Bril makes it possible to reduce the enlargement of the eyes with extra thin lenses. These lenses are however quite expensive. Particularly as children usually use one pair of glasses for about 10 months due to damage and changes in prescription. This is why we have the City Bril Junior Club for children up to 18 years old. For a small monthly amount your son or daughter is assured of a well-fitting frame with the right lenses. If the prescription changes or the lenses get damaged, you’ll receive new ones (from € 0,-).
